

Andrew Parsons

Lead Field Biologist

Andrew Parsons is the Lead Field Biologist for the Southeastern Region, as well as a Certified Prescribe Burn Manager and a Certified Commercial Pesticide Applicator. A native of Huntsville, Alabama, he grew up on a small farm in rural northern Alabama and has worked in agriculture and land management most of his life. Mr. Parsons received a Bachelor of Science in Wildlife Biology from Auburn University's School of Forestry and Wildlife Sciences. While obtaining his degree, he worked for the Auburn University School of Forestry and Wildlife Science assisting with wetland biogeochemistry research around the Southeast.

Prior to joining Westervelt, Mr. Parsons worked and managed horse ranches in California, New Mexico, Montana, Wyoming, Idaho, and Texas. His additional natural resource management experience includes research in the Congaree Swamp of South Carolina and serving as a lead wrangler at Yellowstone National Park in Wyoming.
