

## **Sean McGary**

Tennessee District Manager

Sean McGary, PWS, is the Tennessee District Manager for the Southeastern Region. Mr. McGary specializes in mitigation bank entitlement and compliance, working closely with regional interagency review teams. Sean's responsibility is to develop and manage the full breadth of business activities in Tennessee focusing on full-delivery mitigation, mitigation banking, and conservation banking projects along with other emerging services. He leads the strategic planning, market analysis, and business development for the Tennessee District. Sean manages project development and submittals for mitigation and conservation banks or projects: oversees the project entitlement process, agency negotiation, management of the approval process and tracking, and project compliance for the district.

Sean conducts and coordinates the search for mitigation and conservation properties in promising markets or locations within the Tennessee District where clients have a need. He prepares internal project proposals for new projects with information on market strength, identifies customers, site feasibility, and financial performance.

Originally from Ft. Myers, FL, Mr. McGary received his degree in Environmental Science from the University of Florida. Prior to joining Westervelt, he served as an ecologist/scientist for both the private and public sectors including Passarella and Associates in Ft. Myers, FL, Georgia Department of Transportation in Atlanta, GA, and Hayes, Seay, Mattern, and Mattern in Raleigh, NC.

Mr. McGary is an active member of the Society of Wetland Scientists and Society of Ecological Restoration and is a certified Professional Wetland Scientist (PWS).
