

Seth Hunt

Biologist

Seth Hunt is a Biologist whose role is within the Land Stewardship group for the Southeast Region of Westervelt Ecological Services (WES). Seth began with WES in May 2016, working on mitigation and conservation banking land stewardship and management. His primary responsibilities included monitoring and reporting, large-scale project implementation for stream, wetland, and wildlife habitat, GIS support, and conducting various land management activities as prescribed burning, invasive species control, and overseeing various contractors.

Seth received his Bachelors of Science in Forestry at Auburn University in 2014 and his Masters of Science in Forestry at Auburn University in 2016. His thesis pertained to land ownership changes, harvest behavior, and forest history in west-central Alabama with a heavy focus in GIS and remote sensing applications. Additionally, he worked in the Longleaf Stand Dynamics Lab where he studied prescribed fire effects, silviculture, and habitat management of longleaf pine, oak-pine, and hardwood forest ecosystems. Prior to working with WES, Mr. Hunt worked with the Fish and Wildlife Service in the South Arkansas National Wildlife Refuge Complex doing habitat management.
